

# MES GARWARE COLLEGE OF COMMERCE (AUTONOMOUS)

**BBA-CA Programme** (Autonomous)

**Under the Guidelines of NEP 2020 and AICT** 

AY 2024-25

FY BBA(CA) – Semester – I				
Course Code: 23BA1-A011	Subject: Basic 'C' Language	Marks: 100 Credits: 4		

#### **Course Objectives:**

- To understand step-by-step analysis of the process of programming logic.
- To know the basic properties and syntax of C programming language.
- To understand input and output operation in C..
- To understand all decision making statements in C Language.
- To understand concept of array and string in C Language

#### **Course Outcome:**

After completing the course, the student shall be able to

**CO1:** Ability to visualize the representation the input, output, decisions, and calculations that take place within a program.

**CO2:** Understand the history, operators and data types of C Language.

CO3: Basic knowledge of input, output operations and practical implementation in coding.

**CO4:** Practical knowledge of if-else statement and loops used in C Language.

CO5: Practical implementation of arrays, string and storage classes in c language and build programming skills.

Unit	Unit Title	Contents	No. of Lectures + CCE
I	Algorithm and Flowchart	<ul> <li>1.1 Concept: Problem, Algorithm.</li> <li>1.2 Characteristics of an algorithm.</li> <li>1.3 Examples <ul> <li>1.3.1 Addition / Multiplication of integers</li> <li>1.3.2 Determining if a number is +ve / -ve , even / odd</li> <li>1.3.3 Maximum of 2 numbers , 3 numbers</li> <li>1.3.4 Sum of first n numbers, sum of given n numbers , Sum of digits of a given number, sum of first and last digit of a Number.</li> </ul> </li> <li>1.4 Introduction of flow chart</li> <li>1.5 Symbols of flowchart</li> <li>1.6 Draw flowcharts for algorithms implemented in</li> </ul>	10
II	Introduction to C language	2.1 History 2.2 Basic structure of C Programming 2.3 Language fundamentals 2.3.1 Character set, tokens 2.3.2 Keywords and identifiers 2.3.3 Variables and data types 2.4 Operators 2.4.1 Types of operators 2.4.2 Precedence and associativity 2.4.3 Expression	10
III	Managing I/O operations	3.1Console based I/O and related built-in I/O functions 3.1.1 printf(), scanf() 3.1.2 getch(), getchar() 3.1.3 putch() and putchar() 3.1.4 sscanf() and sprintf()	7
IV	Decision Making and looping	4.1Introduction 4.2Decision making structure 4.2.1 If statement 4.2.2 If-else statement 4.2.3 Nested if-else statement	13

FY BBA(CA) – Semester – I					
Course Code: 23BA1-A021	Subject: Database Management System	Marks: 50 Credits: 2			

## **Course Objectives:**

- To know the basic database concepts, applications, data models, schemas and instances.
- To understand the basics of data storage, data manipulation and data retrieval
- To familiarize with the concept of Relational Database Management system.

#### **Course Outcome:**

After completing the course, the student shall be able to

**CO1:** Apply the basic concepts of Database Systems and Applications.

**CO2:** Understand to implement the E R model and relational model

CO3: Learn to apply various Normalization techniques to use Relational Database Management System.

Unit	Unit Title	Contents	No. of Lectures + CCE

FY BBA Computer Applications Semester I				
Course Code: 23BA1- D071	Course: Ancient Indian Textile Industry	Marks: 50 Credits: 2		

## **Course Objectives:**

- 1. To impart the information about the evolution of the ancient Indian textile industry and provide exposure to the students about the economic strength of Indian economy in the past gained from the manufacturing of textile and its exports.
- 2. To Aquent students with the knowledge of sourcing of raw material and various textile art forms in various regions ancient India.

#### **Course Outcome:**

After completing the course, the student shall be able to

- **CO1.** Perceive the glory of India as a leading exporter on the front of textile and know the relative importance of Indian textile industry since last number of centuries and will feel proud of about it.
- **CO2.** Aquent students with the knowledge of sourcing of raw material and various textile art forms in various regions of ancient India.

Unit	Unit Title	Contents	No. of lectures
I	Evolution of Indian Textiles Industry	<ul> <li>1.1 History of Indian Textile Trade and Exchange in Ancient India.</li> <li>1.2 Textile Industry in India during: Indus Valley Civilisation</li> <li>1.3 Vedic and post-Vedic period</li> <li>1.4 Mauryan periods (Kautilya's Arthashatra) later Mauryan period</li> <li>1.5 Gupta period</li> <li>1.6 Later period</li> <li>1.7 Contribution of Textile Industry in Ancient</li> <li>1.8 Medieval Indian Economy.</li> </ul>	16
2	Study of Ancient Indian Textile	<ul> <li>2.1 India as the ancient home of cotton and silk fabrics.</li> <li>2.2 Major woven fabrics in ancient India</li> <li>2.3 Major Variety of Textile developed in different parts of India</li> <li>2.4 Variety of Dye in India</li> </ul>	12

- Q1. Write a C program to accept dimensions of a cylinder and display the surface area andvolume of cylinder. [15 Marks]
- Q2. Write a C program to find product of matrices.

[25 Marks]

Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Emp(eno ,ename ,designation ,salary, Date\_Of\_Joining)Dept(dno,dname ,loc)

The relationship between Dept & Emp is one-to-many.

Constraints: - Primary Key, ename should not be NULL, salary must be greater than 0.

#### Consider the above tables and Execute the following queries:

- 1. Add column phone\_No into Emp table with data type int.
- 2. Delete the details of Employee whose designation is 'Manager'.
- Q4. Consider the above database and execute the following queries:

[25 Marks]

- 1. Display the count of employees department wise.
- 2. Display the name of employee who is 'Manager' of "Account Department".
- 3. Display the name of department whose location is "Pune" and "Mr. Advait" isworking in it.
- 4. Display the names of employees whose salary is greater than 50000 and departmentis "Quality".
- 5. Update Dateofjoining of employee to '15/06/2019' whose department is 'computerscience' and name is "Mr. Roy'.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to accept radius of a circle and display the area and circumference of a circle. [15 Marks]
- Q2. Write a program to calculate sum of following series up to n terms. [25 Marks]  $Sum=X+X^2/2+X^3/3+...$
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Sales\_order (ordNo, ordDate)

Client (clientNo, ClientName, addr)

The relationship between Client & Sales\_order is one-to-many.Constraints: - Primary Key, ordDate should not be NULL.

#### Consider the above tables and execute the following queries:

- 1. Add column amount into Sales\_order table with data type int.
- 2. Delete the details of the clients whose names start with 'A' character.
- Q4. Consider the above tables and execute the following queries: [25 Marks]
  - 1. Delete sales order details of client whose name is "Patil" and order date is "09/08/2019".
  - 2. Change order date of client No 'CN001' to '18/03/2019'.
  - 3. Delete all sales record having order date is before '10/02/2018'.
  - 4. Display date wise sales order given by clients.
  - 5. Update the address of client to "Pimpri" whose name is 'Mr. Roy'.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to accept temperatures in Fahrenheit (F) and display it in Celsius(C) and Kelvin (K) (Hint: C=5.0/9(F-32), K = C + 273.15) [15 Marks]
- Q2. Write a menu driven program to perform the following operations on strings using standardlibrary functions: [25 Marks]
  - 1. Length of String 2. Copy String 3. Connect Two Strings 4. Compare two strings
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Hospital (hno ,hname , city, Est\_year, addr)Doctor (dno , dname , addr, Speciality)

The relationship between Hospital and Doctor is one - to – Many Constraints: - Primary Key, Est\_year should be greater than 1990.

#### Consider the above tables and execute the following queries:

- 1. Delete addr column from Hospital table.
- 2. Display doctor name, Hospital name and specialty of doctors from "Pune City".
- Q4. Consider the above tables and execute the following queries: [25 Marks]
  - 1. Display the names of the hospitals which are located at "Pimpri" city.
  - 2. Display the names of doctors who are working in "Birla" Hospital and city name is "Chinchwad".
  - 3. Display the specialty of the doctors who are working in "Ruby" hospital.
  - 4. Give the count of doctor's hospital wise which are located at "Pimple Gurav".
  - 5. Update an address of Doctor to "Pimpri" whose hospital is "Ruby clinic".

Q5. Viva / Oral [10 Marks]

Q1. Write a C program to accept two numbers and print arithmetic and harmonic mean of the two numbers (Hint: AM = (a+b)/2, HM = ab/(a+b)) [15 Marks] Q2. Write a C program to sum of middle row & column of metrics. [25 Marks] Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks] Patient (PCode, Name, Addr, Disease) Bed (Bed\_No, RoomNo, loc) Relationship: - There is one-one relationship between patient and bed. Constraints: - Primary key, RoomNo must be greater than Bed\_No, Addr should not be null. Consider the above tables and execute the following queries: 1. Display the details of patients who are from "Pimple Gurav". 2. Delete the details of patient whose Bed No is 1 and RoomNo is 105. Q4. Consider the above tables and execute the following queries: [25 Marks] 1. Display the count of patient room wise. 2. Display the names of patients who are admitted in room no 101. 3. Display the disease of patient whose bed No is 1. 4. Display the room no and bed no of patient whose name is "Mr Roy". 5. Give the details of Patient who is admitted on 2<sup>nd</sup> flr in roomno 102. Q5. Viva / Oral [10 Marks] [10 Marks] Q6. Lab Book

- Q1. Write a C program to accept dimensions length (l), breadth(b) and height(h) of a cuboids and display surface area and volume (Hint: surface area=2(lb+lh+bh), volume=lbh) [15 Marks]
- Q2.Write a program which accepts a sentence from the user and alters it as follows: Every spaceis replaced by \*, case of all alphabets is reversed, digits are replaced by ? [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Customer (cust\_no, cust\_name, address, city)Loan (loan\_no, loan\_amt)

The relationship between Customer and Loan is Many to

ManyConstraint: Primary key, loan\_amt should be > 0.

#### Consider the above tables and execute the following queries:

- 1. Add Phone No column in customer table with data type int.
- 2. Delete the details of customer whose loan amt<1000.
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. Find details of all customers whose loan amt is greater than 10 lakh.
- 2. List all customers whose name starts with 'D' character.
- 3. List the names of customer in descending order who has taken a loan fromPimpri city.
- 4. Display customer details having maximum loan amount.
- 5. Update the address of customer whose name is "Mr. Patil" and loan\_amt isgreater than 100000.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C Program to accept a character from the keyboard and display its previous andnext character in order. Ex. If character entered is 'd', display "The previous character is c", "The next character is e". [15 Marks]
- Q2. Write a program to accept a string and then count the occurrences of a specific character of astring. [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Project (pno, pname, start\_date, budget, status)Department (dno, dname, HOD, loc)

The relationship between Project and Department is Many to

One.Constraint: Primary key.

**Project Status Constraints: C – Completed,** 

**P** -

Progressive,I - Incomplete

### Consider the above tables and execute the following queries:

- 1. Drop loc column from department table.
- 2. Display the details of project whose start\_date is before one month and status is "Progressive"
- **Q4.** Consider the above tables and execute the following queries:

[25 **Marks**]

- 1. Display the names of project and department who are worked on projects whosestatus is 'Completed'.
- 2. Display total budget of each department.
- 3. Display incomplete project of each department.
- 4. Display all project working under 'Mr.Desai'.
- 5. Display department wise HOD.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to accept the x and y coordinates of two points and compute the distance between the two points. [15 Marks]
- Q2. Write a program to calculate Multiplication of two matrices of order m\*n. [25 Marks]
  - Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Room (roomno, desc, rate)

Guest (gno, gname,

no\_of\_days)

The relationship between Room and Guest is One to One.Constraint: Primary key, no of days should be > 0.

#### Consider the above tables and execute the following queries:

- 1. Update the rate of room to 5000 whose type is "AC".
- 2. Display the name of guest who is staying 2 days in roomno 101.
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. Display room details according to its rates in ascending order.
- 2. Display the roomno in which "Mr. Advait" is staying for 7 days.
- 3. Find no. of AC rooms.
- 4. Find names of guest with maximum room charges.
- 5. Display guest wise halt days.

Q5. Viva / Oral [10 Marks]

- Q1. A cashier has currency notes of denomination 1, 5 and 10. Write a C program to accept the withdrawal amount from the user and display the total number of currency notes of each denomination the cashier will have to give. [15 Marks]
- Q2. Write a menu driven program to perform the following operation on m\*n

  Matrix [25 Marks]
  - 1. Calculate sum of upper triangular matrix elements
  - 2. Calculate sum of diagonal elements
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Book (Book\_no, title, author, price, year\_published)
Customer (cid, cname, addr)
Relation between Book and Customer is Many to Many with quantity asdescriptive attribute.

Constraint: Primary key, price should be >0.

Consider the above tables and execute the following queries:

- 1. Display the name of book whose author is "Mr. Gadhave".
- 2. Add column EMailId into customer table.
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. Display customer details from 'Mumbai'.
- 2. Display author wise details of book.
- 3. Display customer name that has purchased more than 3 books.
- 4. Display book names having price between 100 and 200 and published year is 2019.
- 5. Update the title of book to "DBMS" whose author is "Mr. Talore".

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to accept a character from the user and check whether the characteris a vowel or consonant. [15 Marks]
- Q2. Write a program to accept two numbers as range and display multiplication tableof all numbers within that range. [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Property (pno, desc, area, rate) Owner (owner\_name, addr, phno)

The relationship between owner and Property is One to Many. Constraint: Primary key, rate should be > 0

Consider the above tables and execute the following queries:

- 1. Display area of property whose rate is less than 100000.
- 2. Give the details of owner whose property is at "Pune".
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. Display area wise property details.
- 2. Display property owned by 'Mr.Patil' having minimum rate.
- 3. Delete all properties from "pune" owned by "Mr. Joshi".
- 4. Update the phone Number of "Mr. Joshi" to 9922112233 who is havingproperty at "Uruli Kanchan".
- 5. Delete column address from Owner table.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to accept the x and y coordinate of a point and find the quadrant in which the point lies. [15 Marks]
- Q2. Write a program, which accepts a number n and displays each digit in words.

Example: 6702 Output = Six-Seven-Zero-Two [25 Marks]

Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Employee (emp\_no, name, skill, payrate)Position (posting\_no, skill)

The relationship between Employee and Position is Many to Many with day and shift asdescriptive attribute.

Constraint: Primary key, payrate should be > 0. Consider the above tables and execute the following queries:

- 1. Display skill of employees name wise.
- 2. Update the posting of employee to 220 whose skill is "Manager".
- Q4. Consider the above tables and execute the following queries: [25 Marks]
  - 1. Find the names and rate of pay of all employees who has allocated a duty.
  - 2. Give employee number who is working at posting\_no. 201, but don't have theskill of waiter.
  - 3. Display a list of names of employees who have skill of chef and who has assigned a duty.
  - 4. Display shift wise employee details.
  - 5. Update payrate of employees to 20000 whose skill is waiter.

Q5. Viva / Oral [10 Marks]

Q1. Write a C program to accept the cost price and selling price from the user. Find out if the seller has made a profit or loss and display how much profit or loss has been made.

[15 Marks]

Q2. Accept radius from the user and write a program having menu with the following options and corresponding actions [25 Marks]

Options	ions
1. Area of Circle	Compute area of circle and print
2. Circumference of Circle	Compute Circumference of circle and print
3. Volume of Sphere	Compute Volume of Sphere and print

Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Bill (billno, day, tableno, total) Menu (dish\_no, dish\_desc, price)

The relationship between Bill and Menu is Many to Many with quantity as descriptive attribute.

Constraint: Primary key, price should be > 0. Consider the above tables and execute the following queries:

- 1. Display the tableno whose dish desc is "Veg".
- 2. Display the special menu of Monday.

#### Q4. Consider the above tables and execute the following queries:

1. Display receipt which includes bill\_no with Dish description, price, quantity and total amount of each menu.

[25 Marks]

- 2. Find total amount collected by hotel on date 09/07/2019.
- 3. Count number of menus of billno 301.
- 4. Display menu details having price between 100 and 500.
- 5. Display the tableno and day whose bill amount is zero.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to calculate sum of digits of a given input number. [15 Marks]
- Q2. Accept two numbers from user and write a menu driven program to perform the following operations [25 Marks]
  - 1. swap the values of two variables
  - 2. calculate arithmetic mean and harmonic mean of two numbers
- Q3 Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Movies (M\_name, release\_year, budget) Actor (A\_name, role, charges, A\_address)Producer (producer\_id, name, P\_address)

Relationship:- Each actor has acted in one or more movie. Each producer has produced many movies but each movie can be produced by more than one producers. Each movie hasone or more actors acting in it, in different roles.

Constraint: Primary key, release\_year > 2000, A\_address and P\_address should notbe same.

Consider the above tables and execute the following queries:

- 1. List the names of movies with the highest budget.
- 2. Display the details of producer who have produced more than one movie in a year.
- Q4. Consider the above tables and execute the following queries:

[25 **Marks**]

- 1. List the names of movies with the second highest budget
- 2. List the names of actors who have acted in the maximum number ofmovies.
- 3. List the names of movies, produced by more than one producer.
- 4. List the names of actors who are given with the maximum charges for their movie.
- 5. List the names of actors who have acted in at least one movie, inwhich 'Akshay'

has acted.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to accept the value of n and display sum of all odd numbers up to n. [15 Marks]
- Q2. Write a C program to sum of lower triangular and upper triangular elements of a matrix. [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Driver (driver\_id, driver\_name, address)Car (license\_no, model, year)

Relation between Driver and Car is Many to Many with date and time asdescriptive attribute.

Constraint: Primary key, driver\_name should not be null. Consider the above tables and execute the following queries:

- 1. Display the name of driver whose license no is "DPU123".
- 2. Delete the details of car whose model is "swift".
- Q4. Consider the above tables and execute the following queries: [2

[25 **Marks**]

- 1. Display details of all persons who are driving 'Alto' car.
- 2. Update model of car to "SUV300" whose manufactured year is 2019.
- 3. Display car details manufactured before year 2000.
- 4. In which day 'Mr. Ram' drives maximum number of cars.
- 5. Display total number of drivers who drives car in each year.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to check whether a input number is Armstrong number or not.

  [15 Marks]
- Q2. Write a program to accept a number and count number of even, odd and zero digits within that number. [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Student (stud\_reg\_no, stud\_name, class)Competition (cno, cname, ctype)

Relation between Student and Competition is Many to Manywith rank and year as descriptive attribute.

Constraint: Primary key, class must be("FY,SY,TY").

Consider the above tables and execute the following queries:

- 1. Count total no students class wise.
- 2. Delete the details of student who has participated in "Mehandi" competation.
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. Display students from class 'FY' and participated in 'E-Rangoli 'Competition.
- 2. Find the number of student for programming competition.
- 3. Display the names of first three winners of each competition.
- 4. Display average number of students participating in each competition.
- 5. Display total number of competition held in the year 2014.

Q5. Viva / Oral [10 Marks]

## Q1. Write a C program to check whether a input number is perfect number of not. [15 Marks]

## Q2. Write a program having a menu with the following options and corresponding actions [25 Marks]

Options	Actions
1. Area of square	Accept length ,Compute area of square and print
2. Area of Rectangle	Accept length and breadth, Compute area of rectangle and print
3. Area of triangle	Accept base and height, Compute area of triangle and print

## Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Plan (plan\_no, plan\_name, nooffreecalls, freecalltime, fix\_amt)Customer (cust\_no, cust\_name, mobile\_no)

Relation between Plan and Customer is One to Many. Constraint: Primary key, fix\_amt should be greater than 0.

#### Consider the above tables and execute the following queries:

- 1. Display the details of plan who has taken by "Mr. Patil".
- 2. Update the mobile No of customer to 7020079536 whose name is "MrRoy" and plan is "Go Max".

#### **Q4.** Consider the above tables and execute the following queries:

[25 Marks]

- 1. Display the plan having minimum response.
- 2. Display customer details starting their mobile number with 98.
- 3. Display the customer details that are getting less number of free calls than that ofthe plan 'Let's Rock'.
- 4. Delete the details of 'John' who has stopped 'Go Max' plan.
- 5. Find the plan whose fixed amount is greater than 5000.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to calculate  $x^y$  without using standard library function. [15 Marks]
- Q2. Write a program to display union and intersection of two 1D array. [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Employee (emp\_id, emp\_name, address)
Investment (inv\_no, inv\_name, inv\_date, inv\_amount)

Relation between Employee and Investment is One to Many.Constraint: Primary key, inv\_amount should be > 0.

Consider the above tables and execute the following queries:

- 1. Display the details of employee who has invested amount in "Mutual Fund".
- 2. Add column Phone No in Employee table.
- Q4. Consider the above tables and execute the following queries: [25 Marks]
  - 1. Display employee details who have invested more than 100000.
  - 2. Display employee wise total investment amount.
  - 3. Display the employee names who invest on date 2<sup>nd</sup> Jan 2013.
  - 4. Display employee whose investment are more than 3.
  - 5. Find average investment of employees of Pune.

Q5. Viva / Oral [10 Marks]

#### Q1. Write a C program to display multiplication table of a given input number [15 Marks]

- Q2. Write a menu driven program to perform the following operation on m\*n

  Matrix [25 Marks]
  - 1. Display transpose of a matrix
  - 2. Calculate sum of all odd elements of matrix
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Politicians (pno, pname, telephone\_no)Party (party\_code, party\_name)

Relation between Politicians and Party is Many to One. Constraint: Primary key, party\_name should not be null.

Consider the above tables and execute the following queries:

- 1. Display the name of party whose politician is "Mr. Patil".
- 2. Update party name of politician whose name is "Mr.Pawar".
- Q4. Consider the above tables and execute the following queries: [25 Marks]
  - 1. Display party names in ascending order.
  - 2. Find the party who is having less number of members than 'Congress' party.
  - 3. Display party wise politician name with details.
  - 4. Display the party name with the details of politicians whose name include "Rao".
  - 5. Which party has maximum politicians

Q5. Viva / Oral [10 Marks]

Q1. Write a C program to generate following triangle up to n lines. [15 Marks]

1

1 2

1 2 3

- Q2. Write a C program to design calculator with basic operations using switch case.[25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Game (game\_name, no\_of\_players, coach\_name)Player (pid, pname, address, club\_name)

Relation between Game and Player is Many to Many. Constraint: Primary key, no\_of\_players should be > 0.

Consider the above tables and execute the following queries:

- 1. Display the name of club whose coach is "Mr. Sehwag".
- 2. Update the game name of player to cricket whose name is "Mr Rahane".
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. Display players from 'Delhi'.
- 2. List all games which require more than 4 players.
- 3. Find the total number of cricket players of 'sports club".
- 4. Display games having more number of players than that of football.
- 5. Display coach wise player details.

Q5. Viva / Oral [10 Marks]

Q6. Lab Book

[10 Marks

Q1. Write a C program to generate following triangle up to n lines. [15 Marks] 1 2 3 4 5 6 Q2. Write a program to calculate addition of two matrices [25 Marks] Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 **Marks**] Wholesaler (w\_no, w\_name, address, city)Product (product\_no, product\_name, rate) Relation between Wholesaler and Product is Many to Manywith quantity as descriptive attribute. Constraint: Primary key, rate should be > 0. Consider the above tables and execute the following queries: 1. Update product\_name to "Monitor" whose supplier is "Mr. Patil".

Q4. Consider the above tables and execute the following queries:

2. Display product wise rate.

- [25 **Marks**]
- 1. Display wholesaler from 'Pune' city and supplying 'Monitor'.
- 2. Display total number of wholesaler of each product.
- 3. Display all wholesalers who are supplying 'Keyboard' with maximum price.
- 4. Display total quantity of each product sold by 'Mr. Khabia'.
- 5. Decrement rate of all products by 5% supplied by wholesaler from 'Pune' city.

Q5. Viva / Oral [10 Marks]

Q1. Write a C program to generate following triangle up to n lines. [15 Mark	01	. Write a C	program	to generate	following	triangle up	to n lines.	[15 Marks]
--	----	-------------	---------	-------------	-----------	-------------	-------------	------------

A

A B

A B C

Q2. Write a C Program to find the sum of digits of a number until a single digit is occurred

[25 Marks]

Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Client (client\_no, client\_name, address, birthdate)
Policy\_info (policy\_no, desc, maturity\_amt, prem\_amt, date)

Relation between Client and Policy\_info is Many to Many Constraint: Primary key, prem\_amt and maturity\_amt should be > 0.

Consider the above tables and execute the following queries:

- 1. Display premium amount paid by "Mr. Mahandule" since 1 Jan 2018.
- 2. Display the details of client who have taken policy "Jeevan Raksha".
- Q4. Consider the above tables and execute the following queries:

[25 **Marks**]

- 1. Display Policy details having maturity amount >500000.
- 2. Find total number of policies purchased on 12<sup>th</sup> January 2019.
- 3. Find clients who have more than 3 policies.
- 4. Find all policies whose number of clients is same as that of policy 'Jeevan Raksha'.
- 5. Display policy wise client details.

Q5. Viva / Oral [10 Marks]

Q1. Write a C program to generate following triangle up to n lines. [15 Marks]

A B C

A B

A

Q2. Write a menu driven program to perform the following operation on m\*n

Matrix [25 Marks]

- 1. Find sum of non diagonal elements of matrix
- 2. Find sum of all odd numbers of matrix
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Train (train\_no, train\_name, depart\_time, arrival\_time,source\_stn, dest\_stn)Passenger (p\_id,p\_name,address,age, gender)

Relation between Train and Passenger is Many to Many with seat\_no, amount and date asdescriptive attribute.

Constraint: Primary key, seat\_no should not be null.

Consider the above tables and execute the following queries:

- 1. Display passenger names and their seat no's of train "sahyadri express".
- 2. Display details of train in which "Mr. Roy" is travelling from "Pune" to "Uruli Kanchan".
- Q4. Consider the above tables and execute the following queries: [25 Marks]
  - 1. Display passenger details having age>50
  - 2. Display total amount collected for "Kokan Express" on 5<sup>th</sup> January 2019.
  - 3. Find total number of passenger of "Pune to Mumbai" route.
  - 4. Cancel all the trains of 21st January 2019.
  - 5. Calculate total number of male passenger in "Shatabdi Express".

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to accept n elements of 1D array and then display sum of all elements of array. [15 Marks]
- Q2. Accept n integers in an array. Copy only the non-zero elements to another arrayCalculate the sum and average of non-zero elements. [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Student

(rno,sname,address,class)

Subject (subno, subname)

Relationship: - Student and Subject are related with many-to-many relationship with attributemarks and status.

Constraints: - Primary Key, class must be fy,sy,ty.

Consider the above tables and execute the following queries:

- 1. List the names of student class wise.
- 2. Display the marks of students subject wise.
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. List the distinct names of students who have either Electronics, or Statistics or bothsubjects.
- 2. List the names of students who are either passed or failed.
- 3. List the students who have "Database" subject and they are not in "TY" class.
- 4. List the names of students who are not failed in any subject.
- 5. List the names of students not staying at "Uruli Kanchan".

Q5. Viva / Oral [10 Marks]

[15 Marks] Q1. Write a C program to find maximum elements of 1D array Q2. . Write a C program to print this triangle up to n numbers [25 Marks] 3 5 7 9 11 Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks] Bus(bus\_no, capacity, depo\_name) Route(Route\_no, source, destination, no\_of\_stations) Relation between Bus and Route is Many to One. Constraint: Bus capacity should be greater than 0, depo\_name should not be null. Consider the above tables and execute the following queries: 1. List all buses at depo "kothrud". 2. Delete bus details whose number is "MH12HL7812". Q4. Consider the above tables and execute the following queries: [25 Marks] 1. List all buses on route no 41. 2. List the route details having number of stations > 10. 3. Delete all buses having capacity < 20. 4. Find the maximum number of stations. 5. List all routes starting from "station". Q5. Viva / Oral [10 Marks]

[10 Marks]

Q6. Lab Book

#### Q1. Write a C program to calculate sum of all even elements of an array. [15 Marks]

Q2. Write a menu driven program for the following option

[25 **Marks**]

- 1. Check input number is Armstrong or not
- 2. Check input number is Perfect or not
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

College (code, college\_name, address)
Teacher (teacher\_id, teacher\_name, Qualification, specialization, salary, Desg)

Relation between Teacher and College is Many to One. Constraint: Primary Key, qualification should not be null.

#### Consider the above tables and execute the following queries:

- 1. List the name of staff having qualification is "SET-NET".
- 2. Update the salary of teacher to 50000 whose qualification is "PhD".
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. List the college wise staff.
- 2. Display the details of Teachers who are working in Dr. D Y Patil College and their specialization is "Computer".
- 3. Display the designation of teacher whose name is "Mr Patil" and he is working in DPU college.
- 4. Display teacher wise salary.
- 5. Update an address of college to "Sant TukaramNagar" whose name is "MD College".

Q5. Viva / Oral [10 Marks]

### Q1. Write a C program to calculate length of string without using standard functions. [15 Marks]

- Q2. Write a menu driven program to perform the following operation on m\*n

  Matrix

  [25 Marks]
  - 1. Find sum of diagonal elements of matrix
  - 2. Find sum of all even numbers of matrix
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Gym (Name, city, charges, scheme) Member (ID, Name, phoneNo, address)

Relation between Gym and member is one to many. Constraint: Primary Key, charges must be greater than 0.

Consider the above tables and execute the following queries:

- 1. Display the scheme details of "Gold Gym".
- 2. List out all the gym of "Pimpri" city.
- **Q4.** Consider the above tables and execute the following queries:

[25 Marks]

- 1. Give the details of scheme to which "Mr. Patil" is admitted.
- 2. List out gym wise members.
- 3. List out scheme wise charges.
- 4. Display all the members from pune city who have paid Gym charges more than 10000.
- 5. Drop column address from Member table.

Q5. Viva / Oral [10 Marks]

Q1. Write a program to count the occurrences of vowel from a input string. [15 Marks] Q2. Write a menu driven program for the following option [25 Marks] 1. Calculate H.C.F 2. Print reverse of a number Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [25 Marks] Student (rollno, sname, class, timetable) Lab (LabNo, LabName, capacity, equipment) Relation between Student and Lab is Many to One. Constraint: Primary Key, capacity should not be null. Consider the above tables and execute the following queries: 1. Add column Phone No with data type int in Student table. 2. Display lab wise capacity. Q4. Consider the above tables and execute the following queries: [25 Marks] 1. Display practical time table of class 'FYBBA(CA)'. 2. Display the LabName in which 'Mr Advait' is doing practical. 3. List out class wise students. 4. Delete the column equipment from Lab table. 5. Update capacity of Lab to 100 whose Number is 1. Q5. Viva / Oral [10 Marks]

[10 Marks]

Q6. Lab Book

- Q1. Write a program to accept a string and then count the occurrences of a specific character of a string. [15 Marks]
- Q2. Write a program to accept two numbers as range and display multiplication table of all numbers within that range. [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Blood (blood\_id, blood\_group, cholesterol\_level, storage)Donar (donar\_id, name, address, gender, phone\_no)

Relation between Blood and Donar is Many to one. Constraint: Primary Key , Blood\_group should not be null.

Consider the above tables and execute the following queries:

- 1. List out Donar wise Blood group.
- 2. Display cholesterol level of blood which is given by 'Mr. Mahandule'.
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. Display the stock of blood whose group is "O+ve".
- 2. Delete gender column from Donar table.
- 3. Update storage of blood to 100 bottles whose blood group is "B+ve".
- 4. Display blood group having maximum storage.
- 5. Display the details of donar in ascending order of donar name.

Q5. Viva / Oral [10 Marks]

- Q1. Write a C program to calculate factorial of a number using user defined function. [15 Marks]
- Q2. Write a program, which accepts a number n and displays each digit separated by tabs. Example: 6702 Output = 6 7 0 2 [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Country (CId, CName, no\_of\_states, area, location, population)Citizen( Id, Name, mother\_toung, state\_name)

Relation between Country and Citizen is one to many.Constraint: Primary key, area should not be null.

Consider the above tables and execute the following queries:

- 1. List out country wise number of states.
- 2. Display the name of country having minimum population.
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. Display citizens whose mother tounge is 'marathi'.
- 2. Update the population of India to 10000000.
- 3. Display citizen details in descending order by state name.
- 4. Display country details having population more than 1000000.
- 5. Display Country details where 'Ms Reshma' is staying.

Q5. Viva / Oral [10 Marks]

- Q1. Write a program to find sum of digits of a given input number using user defined

  Function [15 Marks]
- Q2. Write a program to accept a number and count number of even, odd and zero digits within that number. [25 Marks]
- Q3. Consider the following entities and their relationships. Create a RDB in 3 NF with appropriate data types and Constraints. [15 Marks]

Library(<u>Lno</u>, Lname, Location, Librarian, no\_of\_books)Book(<u>Bid</u>, Bname, Author\_Name, Price, publication)

Relation between Library and Book is one to many. Constraint: Primary key, Price should not be null.

#### Consider the above tables and execute the following queries:

- 1. Display library details having number of books greater than 10000.
- 2. Display the list of books of 'BPB' publication.
- Q4. Consider the above tables and execute the following queries:

[25 Marks]

- 1. Display publication wise number of books.
- 2. Display total price of books of 'Nirali' publication.
- 3. Delete the book details of Vision publication from 'DPU' Library.
- 4. Display all books of author whose initial character of name is 'A'.
- 5. Update number of books of success publication to 1000 from DYP library.

Q5. Viva / Oral [10 Marks]

# Course Subject : English for Business Communication Marks : 50 Code: 23BA1-I061 Credits : 2

#### **Course Objectives:**

To understand the English grammar and writing skills.

To understand the basic theories of professional communication skills.

#### Course Outcome :

After completing the course, the student shall be able to

CO1: Demonstrate basic knowledge of English grammar and writing skills

CO2: Understand the basic theories of professional communication skills

nit	nit Title	Contents
	Basic English	Active and Passive voice, tenses
	Grammar & writing skills	Identifying nouns, adjectives, adverbs, pronouns, punctuations
		Comprehension skills and paraphrasing
		1.4.Concept ,need and functions of writing skills like Business Correspondence
		Essentials of Business Letter
		Types of Business letters
		Layout/Drafting of business letter.
		Business Correspondence: Enquiry Letter, Reply to enquiry, Purchase Order, Credit & Status enquiry letter, Sales Letter, Complaint letter, promotional letter, leave application and resignation letters
		Report Writing and Internal Correspondence: Report- Meaning, Need & Importance, Types.
		Notices, memos, circulars, Blog writing.

roduction to ofessional	2.1 Communication - meaning, importance, communication process model
 	Verbal Communication, Non-verbal Communication, Formal Communication, Informal Communication.
	Oral communication- Objectives, Functions, Advantages and Disadvantages. Types of Oral Communication
	Written communication, Forms of written communication. Qualities, difficulties in written communication, Constraints indeveloping effective written communication.
	Non-Verbal Communication- Objectives, Functions, Advantages and Disadvantages. Forms of Non-Verbal Communication

Unit	Unit Title	Teaching methodology	Project (If any)	Outcome expected- Conceptual understanding Knowledge/Skills/Attributes etc.		Weighta geof Marks
				Course Outcome(CO)	Learning Outcome (LO)	(%)
1	Basic English Grammar & writing Skills	PPT, Discussion, Grammar sheets, quiz	-	Students will understand the basic Grammar and writing skills	Conceptual understanding, reflective skills	60%
2	Introduction to Professional Communication Skills and their methods	PPT, Discussion, Video clips, poster making	-		Conceptual skills, reflective learning	40%

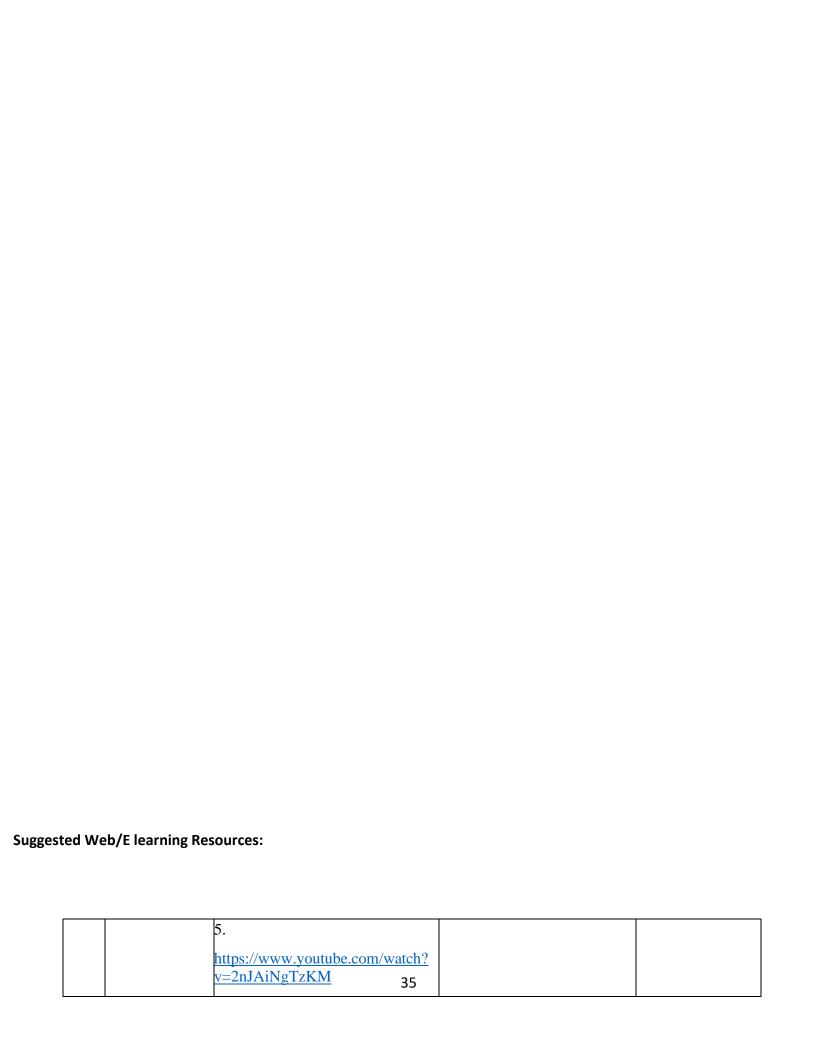

Unit	Evaluation Method	Marks (100	))	Project/Practical(If

#### **Environment Awareness Part-I**

F. Y. BBA CA							
			T				
Course Code 23BA1-J081	:						
			Marks: 50				
		Subject : Environment Awareness Part-I	Credits :2				
Course Object	ctives :						
-	_	lues, attitudes, commitment and practices needed to protect ar	nd improve the				
	ent and better ecosys	stem udents regarding utilization of various natural resources.					
	•	n necessary bio-diversity and ecological conservations and to	address				
complex 6	environmental issues	3					
		rious causes of environmental pollution and its remedies.					
5. To study	ine impacts of numa	n communities on environment					
Course Outco	ome:						
After complet	ing the course, the s	tudent shall be able to					
	_	ns affect on the environment hence how to build better ecosys	tem				
		ement necessary practices for utilization of various natural reso					
		• •					
	te to implement varionmental issues.	ous practices of Bio-diversity and to preserve Ecological Con	servations of				
CO4: Know v	various causes of En	vironmental Pollution and its remedies.					
CO5: Study 7	The impacts of Huma	an Communities On Environment.					
Syllabus Content:							
Unit	Unit Title	Contents	No of				
			Lectures				

I	Introduction To Environmental Studies and Ecosystem	<ul> <li>1.1 Multidisciplinary nature of environmental studies</li> <li>1.2 Scope and importance; Concept of sustainability and sustainable development</li> <li>1.3 Meaning of Ecosystem</li> <li>1.4 Structure and functions of Ecosystem</li> <li>1.5 Energy flow in an Ecosystem: Food Chains, Food Webs and Ecological Succession.</li> </ul>	4
II	Natural Resources: Renewable and Non-renewable Resources	<ul> <li>2.1 Land resources and Over utilization of land</li> <li>2.2 Land degradation, Soil Erosion and Desertification</li> <li>2.3 Deforestation: Causes And Impacts Due to Mining, Dam Building On Environment, Forests, Biodiversity And Tribal Populations</li> <li>2.4 Water: Use And Over-Exploitation of Surface and Ground Water, Floods, Droughts Conflicts Over Water (International &amp; Inter-State)</li> <li>2.5 Energy Resources: Renewable And Non Renewable Energy Sources, Use Of Alternate Energy Sources, Growing Energy Needs, Case Studies</li> </ul>	5
III	Biodiversity and Conservation	<ul> <li>3.1 Levels Of Biological Diversity: Genetic, Species And Ecosystem Diversity</li> <li>3.2 Biogeography Zones of India; Biodiversity Patterns And Global Biodiversity Hot Spots</li> <li>3.3 India as a Mega-Biodiversity Nation; Endangered and Endemic Species of India</li> <li>3.4 Threats To Biodiversity: Habitat Loss, Poaching Of Wildlife, Man-Wildlife Conflicts, Biological Invasions; Conservation Of Biodiversity: In-Situ And Ex-Situ Conservation Of Biodiversity.</li> <li>3.5 Ecosystem and Biodiversity Services: Ecological, Economic, Social, Ethical, Aesthetic and Informational Value.</li> </ul>	6

IV	Environmental Pollution	<ul> <li>4.1 Environmental Pollution: Types, Causes, Effects and Controls; Air, Water, Soil And Noise Pollution</li> <li>4.2 Nuclear Hazards and Human Health Risks</li> <li>4.3 Solid Waste Management: Control Measures Of Urban And Industrial Waste</li> <li>4.4 Climate Change, Global Warming, Ozone Layer Depletion, Acid Rain And Impacts On Human Communities And Agriculture</li> </ul>	4
V	Human Communities and the Environment	<ul> <li>5.1 Human Population Growth: Impacts On Environment, Human Health and Welfare</li> <li>5.2 Resettlement And Rehabilitation of Project Affected Persons; Case Studies</li> <li>5.3 Disaster Management: Floods, Earthquake, Cyclones And Landslides</li> <li>5.4 Environmental Ethics: Role Of Indian and Other Religions and Cultures In Environmental Conservation</li> <li>5.5 Environmental Movements: Chipko, Silent Valley, Bishnois of Rajasthan</li> <li>5.6 Environmental Communication and Public Awareness, Case Studies (eg. CNG Vehicles In Delhi)</li> <li>5.7 Environmental Ethics: Role of Indian And Other Religions And Cultures In Environmental Conservation</li> </ul>	6
No o	of Hours		25(60 mins)
Eval	luation		05
Total No of	f Lectures		30

#### **Teaching Methodology:**

Unit	Unit Title	Teaching methodology	Project (If any)	Outcome expected  Conceptual understanding Knowledge/Skills/Attribute s etc	Weightage of Marks (%)
I	Introduction to environmental studies and Ecosystem	Presentations, Lectures series , Video Clips	NA	The student shall be able to understand how their decisions and actions affect on the environment	15%
II	Natural Resources: Renewable and Non-renewable Resources	Presentations, Lectures series, Video Clips	NA	Students will be able to develop Consciousness about the Eco-system	20%
III	Biodiversity and Conservation	Presentations, Lectures series, Video Clips	NA	Students will able to build knowledge on biodiversity and conservation	25%
IV	Environmental Pollution	Presentations, Lectures series, Video Clips	NA	Students will be able to understand causes of Environmental Pollution and its remedies	15%

Ī	V	Human	Presentations,	NA	Students will understand the	25%
		Communities	Lectures		Environment Ethics	
		And The	series, Video			
		Environment	Clips			

#### **Evaluation Method:**

5	Assignment and Quiz	Assignment	Written Exam			

#### **Suggested Readings:**

Sr. No.	Name of Book	Author	Publication	Edition	Place
1	Silent Spring	Carson R			
2	This Fissured Land: An Ecological History of India.	Gadgil, M			
3	Global Ethics and Environment	Gleeson B.			

## FY BBA(CA) – Semester – II Course Code: 23BA2-A012 Subject: Advance C-Programming Marks: 100 Credits: 4

#### **Course Objectives:**

- To understand advanced features of C Language.
- To understand the use of functions and storage classes in C language.
- To understand and use of pointers in C Language .
- To understand structure, Union and file features of C Language.
- To understand and use of File handling in C Language.

#### **Course Outcome:**

After completing the course, the student shall be able to

CO1: Ability to understand code organization with complex data types and structures

**CO2:** Knowledge of modular programming and its practical implementation.

**CO3:** Knowledge of pointers that is used in different data structures.

**CO4:** Practical knowledge of Structure and Union.

CO5: Practical knowledge of handling files, and other data types-structure and Union.

Unit	Unit Title	Contents	No. of Lectures+CCE
I	Functions and Storage Classes	Introduction of Functions Purpose of function Function definition Function declaration Function call Types of functions- Call by value and call by reference Recursion Storage classes Macros in C	10
II	Pointers &Dynamic Memory Allocation in C language	Introduction to pointer Definition Declaration Initialization Indirection operator and address of operator Pointer arithmetic Dynamic memory allocation Functions and pointers	10
III	Structures	Introduction to Structures Introduction to structure Definition Declaration Accessing members structure operations Nested structure	10
IV	Union and Enumeration	Union Definition and Syntax. Working with union Initializing union Advantages of union Structures versus union  Enumeration Enum keyword typedef keyword Working with Enum	10

V	File Handling	File Handling	10
		Definition of files	
		Opening modes of files	
		Standard function	
		fopen()	
		fclose()	
		feof()	
		fseek()	
		fewind()	
		Using text files	
		fgetc()	
		fputc()	
		fscanf()	
		Command line arguments	
Total N	No of Lectures + Evalu	60 Hours	

Unit	Unit	Suggestive	Project	Outcome expected	Weightage of
	Title	teaching	(If any)	Conceptual understanding	Marks (%)
		methodology		Knowledge/Skills/Attributes etc.	
I	Function s and Storage Classes	Lecture - Demonstration and Practical Implementation in Laboratory	practical	1. To understand basic concepts, of functions in C Language. 2. Practical Implementation of function 3. Knowledge of storage classes and their use in C Language.  critical thinking and problem solving skills	20%
II	Pointers &Dy nami c Mem ory Alloc ation in C language	Lecture - Demonstration and Practical Implementation in Laboratory	practical	1. Basic understanding of Pointers 2. To Understand the importance of pointers.  Information Literacy,cri tical thinking,pr oblem solving ,analytical reasoning	20%

III	Structure s	Lecture - Demonstration and Practical Implementation in Laboratory	practical	1.	To understand use of structure in C Language. Practical implementation of structure in C coding.	critical thinking and problem solving skills	20%
IV	Union & Enu mera tion	Lecture - Demonstration and Practical Implementation in Laboratory	practical	3. 1.	To understand use of Union in C Language. Practical implementation of Union in C coding.	Information Literacy,cri tical thinking,pr oblem solving ,analytical reasoning	20%
V	File Handling	Lecture - Demonstration and Practical Implementation in Laboratory	practical	1. 2. 3.	To understand file handling in C language. To understand different functions used in file handling. Practical Implementation of file in C Language.	Information Literacy,cri tical thinking,pr oblem solving ,analytical reasoning	20%
